After inhalation

Fresh air supply. In case of irregular breathing or respiratory arrest: Oxygen or artificial respiration, if needed. Consult a physician.

After contact with skin

Remove and wash contaminated clothing before re-use. Wash contaminated skin areas thoroughly with soap and water. If skin irritation persists, call a physician.

After contact with eyes

Rinse with plenty of water immediately, also under the eyelids, for at least 15 minutes. Remove contact lenses, if applicable. Consult an ophthalmologist immediately.

After ingestion

Clean mouth with water and drink plenty of water afterwards. Do not induce vomiting. In the event of spontaneous nausea and unconsciousness, keep the head back and bring the patient into the recovery position. Keep the respiratory tract open, prevent aspiration. Lay the affected person down, and keep her or him warm and calm.

Consult a physician.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

carbon dioxide (CO₂), foam, sprayed water stream or dry powder.

Unsuitable extinguishing media

Do not use a solid water stream as it may scatter and spread fire.

5.2. Special hazards arising from the substance or mixture

Vapour/air-mixtures are explosive at intense warming. Vapours are heavier than air and may spread along floors.

The release of the following substances is possible in a fire: carbon monoxide (CO), carbon dioxide (CO₂).

Do not breathe in the vapours and combustion gases.

5.3. Advice for firefighters

Wear self-contained breathing apparatus for fire fighting, if necessary.

Additional information

The combustion gases are partially condensed with the water used to extinguish the fire and end up as a contaminant in this water. Do not let product enter drains.

Contaminated extinguishing water and soil must be disposed of in accordance with official regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe areas. Do not smoke. Remove all sources of ignition. Provide adequate ventilation.

When using, do not eat, drink, or smoke.
Suitable protective equipment: See section 8.

Advice on protection against fire and explosion

Keep away from open flames, hot surfaces, and sources of ignition. Do not smoke. Take precautionary measures against static discharges. In use, may form high flammable/explosive vapour air mixture. Vapours are heavier than air and may spread along floors. Flash back possible over considerable distance.

Further information on handling

Comply with the health and safety at work laws. Handle, store and transport in compliance with local regulations and in labelled containers that are suitable for this product.
