After contact with skin

Wash contaminated skin areas thoroughly with soap and water. Remove soiled clothing. Do not use solvents or thinners. Obtain medical attention.

After contact with eyes

Rinse with plenty of water immediately, also under the eyelids, for at least 15 minutes. Remove contact lenses after the first 1 - 2 minutes and continue flushing. Consult an ophthalmologist immediately.

After ingestion

Immediately give large quantities of water to drink. Do not induce vomiting. In the event of spontaneous nausea and unconsciousness, keep the head back and bring the patient into the recovery position. Keep the respiratory tract open, prevent aspiration. Lay the affected person down, and keep her or him warm and calm. Consult a physician.

SECTION 8: Exposure controls/personal protection**8.1. Control parameters****8.2. Exposure controls****Appropriate engineering controls**

Ensure adequate ventilation, especially in confined areas. This can be achieved by local or space exhaust. If this is not sufficient, in order to hold the solvent vapour concentration lower than the occupational exposure limit an approved respiratory protection apparatus must be worn.

Protective and hygiene measures

Avoid contact with skin and eyes. Do not breathe in vapours or spray mist. Remove and wash contaminated clothing before re-use. Do not eat, drink, smoke or take snuff at work. Wash hands before breaks and immediately after handling the product. Keep away from food, drink and animal food stuffs.

Eye/face protection

Wear suitable gloves and eye/face protection.
Eye wash.

Hand protection

Protective gloves.
The manufacturer recommends the following glove materials: PVC- or rubber gloves.
Safety gloves should be selected for the actual conditions of use and in accordance with the instructions for use provided by the manufacturer.
Preventive skin protection: skin protection cream.

Skin protection

Impervious clothing, boots, apron, protective gloves.
Take off all contaminated clothing immediately. Wash contaminated skin areas thoroughly with soap and water.

Respiratory protection

When workers are facing concentrations above the exposure limit, they must use appropriate certified respirators. In order to avoid inhalation of spray-mist and sanding dust, all spraying and sanding must be done wearing adequate respirator.

Environmental exposure controls

Do not flush into surface water or sanitary sewer system.
