## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### General information

Show this safety data sheet to the doctor in attendance. Never give anything by mouth to an unconscious person. Lay the affected person down and keep him still; If unconscious, place the person in the recovery position.

#### After inhalation

Move to fresh air. Lay the affected person down, and keep her or him warm and calm. If symptoms persist, call a physician. In case of irregular breathing or respiratory arrest: Oxygen or artificial respiration, if needed.

#### After contact with skin

Wash contaminated skin areas thoroughly with soap and water. Remove soiled clothing. Do not use solvents or thinners. Obtain medical attention.

#### After contact with eyes

Rinse with plenty of water immediately, also under the eyelids, for at least 15 minutes. Remove contact lenses after the first 1 - 2 minutes and continue flushing. Consult an ophthalmologist immediately.

#### After ingestion

Immediately give large quantities of water to drink. Do not induce vomiting. In the event of spontaneous nausea and unconsciousness, keep the head back and bring the patient into the recovery position. Keep the respiratory tract open, prevent aspiration. Lay the affected person down, and keep her or him warm and calm. Consult a physician.

### 4.2. Most important symptoms and effects, both acute and delayed

May cause eye/skin irritation.  
nausea, vomiting, cough, shortness of breath, abdominal pain.

### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment (decontamination and vital functions).  
If necessary, contact poison centre.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

#### Suitable extinguishing media

The product itself does not burn. Use extinguishing measures that are appropriate to the environment.
